- **Drinking Water Wells on Private Residential Property**
- **Required Markings**

# What is CUI?

- Government-created or owned UNCLASSIFIED information that allows for, or requires, safeguarding and dissemination controls in accordance with laws, regulations, or Government-wide policies
- Sensitive information that does not meet the criteria for classification, but must still be protected
- NOT level of classification, such as Confidential, Secret, Top Secret
  - NOT referred to as “classified as CUI”
  - Referred to as “controlled as CUI”

# CUI Purpose

- **Purpose of the CUI Program**
  - **Standardization** - in the past, agencies developed their own practices for sensitive unclassified information
  - **Provides a uniform marking system that replaces FOUO**
    - **FOUO no longer authorized marking**
  - **Federal agencies routinely generate, use, store, and share information**
  - **Protects information that does not meet the threshold for classification as national security or atomic energy information**
  - **Requires some level of protection from unauthorized access and release**
  - **Protection required for privacy, law enforcement or other reasons pursuant to and consistent with law, regulation or government-wide policy**

# CUI Citations

- **DOD Instruction 5200.48, Controlled Unclassified Information, March 2020**
  - Establishes Policy, Assigns Responsibilities, and prescribes Procedures throughout DoD per:
    - Executive Order 13556
    - Part 2002 of Title 32 CFR (Final Rule)
    - DFARS Section 252.304-7008 and 252.204-7012
  - Establishes the official DOD CUI Registry
- **DOD Instruction 5230.24, Distribution Statements on Technical Documents, January 2023**
  - CUI markings do not replace Distribution Statements
  - Restrictive Distribution Statements can be applied to documents without CUI content

# CUI Impact / Responsibility

- The authorized holder / document creator is responsible for determining, at the time of creation, whether information falls into a CUI category
- Authorized holder / document creator is responsible for applying CUI markings and dissemination instructions accordingly
  - Contractors work together with NAVFAC RPM
- Per CUI Notice 2020-03, Non-Disclosure Agreement (NDA) Template for CUI:
  - NDA is optional, however, strongly recommended
  - Increases standardization across the organization and in contracts
  - Template available in Resources
- Every individual at every level must comply with DODI 5200.48, including:
  - DOD Civilian Personnel
  - Military Personnel
  - Contractors

# CUI Types

- Two Types of CUI Designations:

- Basic:

- Subset of CUI categories which laws, regulations, or government-wide policies **DO NOT** require specific handling / dissemination controls
      - Uniform set of handling controls defined in DODI 5200.48 and the DOD CUI Registry

- Specified:

- Subset of CUI categories which laws, regulations, or government-wide policies **DO** require specific handling controls
      - The underlying authority defines handling controls
      - Requires Unique Markings
      - Enhanced Physical Safeguards
      - Limits who can access information
      - Specified markings begin with “SP” (Example: SP-BUDG)
      - CUI Specified is NOT a higher level of unclassified information

# CUI Registry

- Official list of indices, categories and descriptions to identify types of CUI
- Provides CUI Markings
- Identifies Limited Dissemination Controls (LDCs)
- Training and Resources
- National (NARA) CUI Registry
  - <https://www.archives.gov/cui/registry/category-list>
- DOD CUI Registry
  - <https://dodcui.com/dod-cui-registry>
    - The DoD CUI Registry mirrors the National CUI (NARA) Registry
    - Provides additional information on by aligning each index and category to DOD issuances
- Reference both sites often for updates - Automatic notifications are not generated as the CUI registries change
