

TECHNOLOGY TRANSFER (T2) UPDATE FOR ENVIRONMENTAL RESTORATION

Issue 239: September 2024

NAVFAC Open Environmental Restoration Resources (OER2) Webinar: Per- and Polyfluoroalkyl Substances (PFAS) Remedial Investigation (RI) Sampling and Analysis Plan (SAP) Case Studies

Please join us for the upcoming NAVFAC OER2 webinar providing insights into the development of PFAS RI SAPs. During this webinar, Remedial Project Managers (RPMs) who have successfully had PFAS RI SAPs approved and implemented will share the strategies used to navigate this process. While PFAS RIs are not fundamentally different from RIs for CERCLA chemicals, there are unique aspects to managing PFAS sites including large data sets, evolving analytical methodologies, and changing regulatory environment.

Topic: PFAS RI SAP Case Studies

Presenters: David Steckler (NAVFAC Washington), Dennis Parker (BRAC PMO West), and Dan Hockett (CH2M/Jacobs)

Moderator: Ramona Iery (NAVFAC EXWC)

Date: Wednesday, October 2, 2024

Time: 3 PM ET

NAVFAC Remediation Innovative Technology Seminar (RITS) Presentations Posted

The RITS is a 2-day training course developed for the Department of the Navy (DON) Environmental Restoration Program (ERP) community to share the latest innovations and best practices. The presentations from the 2024 RITS have been posted as a valuable resource on key topics of interest. The 2024 RITS covered several topics: ecological risk assessments at PFAS sites, human health risk assessments at PFAS sites, climate resilience, multivariate analysis, visualization solutions, and innovations for delineating hydrologic heterogeneity and groundwater flux.

To view the 2024 RITS presentations under the Past Offerings tab, please use the link below:

Federal Remediation Technologies Roundtable (FRTR) Fall 2024 General Meeting

The FRTR Fall 2024 General Meeting will be held on October 29 both online and in person in Reston, Virginia. The meeting will cover the latest developments in source differentiation and risk assessments for sites impacted by PFAS. Register [here](#) for online attendance. Register [here](#) for in-person attendance.

ABOUT THIS EMAIL

This email supports the NAVFAC Environmental Restoration Program by providing the latest information on policy, guidance, and training related to innovative technologies. Links are provided to T2 resources and tools. Our goal is to promote the use of innovative technologies, remove barriers to implementing new technologies, and reduce cleanup costs, while remaining protective of human health and the environment.
